3rd International Conference on Higher Education Research (ICHER 2015) Ho Chi Minh City, Vietnam July 2 – 4, 2015

A. Overview of the L & D Activity

Education is the thread that ties all factors up for economic integration that sustains the regional and global environment. Efforts are being gathered together, and they are not coming just as products of wild imaginations. These are findings tested from sound methodologies and evidences-based outputs that will feed and inform and practice to protect and sustain our society.

IAMURE as always manifests sturdy knowledge management in its conferences. It foster international collaboration for research and publication between and among individual and institutional members and other parties for ASEAN integration.

B. Objectives of the L & D Activity Attended

The objective of the conference is to bring together lectures, researchers and practitioners working on the field of business, education and sciences, in order to exchange information and bring new contribution to the field of education. The conference became the platform for constructive dialogue on recent trends and innovative approaches in academic community, representatives of the private sector and potential partners.

The objectives of the conference are to provide a forum for professional across the world as means for dissemination and utilization of high impact and insightful qualitative and quantitative researchers; nourish collaborations among researchers and institutions in the promotion and production of researchers; recognize meritorious contributions of world researchers and institutions and promote quality research publications as credible sources of scientific literature.

C. Overview of the Topic/s Discussed

The three-day event highlights the presentations of different researches in the field of education, business, engineering and sciences.

On the first day of conference, the participants were welcomed by the President of IASPER, Dr. Djuwari of Indonesia. According to him, "as researchers we cannot stop doing some innovations. All of our works are related to finding ways, creating some new strategies with better methodologies. About education as part of the theme today, we must do research to create ways for improving our education system: attitude towards world research university". It was followed by the welcome address and declaration of the opening of the conference by the President of IAMURE Multidisciplinary Research, Dr. Genaro Japos. On this day, different papers were presented as well as presentation of different talents from the delegates. In addition, after each set of presentation, there is a question and answer from the panel of judges.

The second day of the conference started with the lecture of Dr. Veneracion Cabana, Visiting Scientist of University of Illinois at Chicago. She discussed about the importance of the environment and what we can do to make it more better. After her lecture, the continuation of international paper presentation was shown. The awarding of winners, World Best Abstracts and awarding of certificates were given also during the conference.

D. New Learning from the L & D Activity

The conference highlighted sharing of experiences in the production and publication of researches. We share research findings and we learn more knowledge and skills as we uncover the best practices of different institutions. After the three-day conference, we are motivated to engage in highly interactive and engaging activities. The activities produce tangible results to enhance us the performance of tasks in real-life situations. Activities and discussions are highly engaging where we became the constructor of knowledge. This conference also opens the door of gaining friends and building networks as we meet like-minded people in this event.

In addition, cultivation and preservation of regional cultures were showcased in the conference. We learned also about the place which was one of the intensely historical sites of the ASEAN region. The war museums which speak volumes of the suffering of their people and massive sacrifices were also witnessed.
